## Front-End Developer - 20h per week

---

We are looking for a Europe-based freelance Front-End developer to support our FE team in maintaining and evolving an in-house Angular application. This is a fully remote role, at approximately 20 hours per week.

exense GmbH is a software publisher and services company, specialized in Scalable Automation, Performance Engineering, Service Monitoring and Analytics. We are a human-size, bootstrapped startup operating for clients based in Switzerland, France and Germany. Our mission is to help companies operate their IT systems in a more efficient way through our in-house built innovative and high-quality products. As an open-core company, we are firm believers in the open-source philosophy, and we pride ourselves on being an open-minded workplace.

Our flagship product *step* is a comprehensive platform for unified software automation. Available as SaaS or on-premise, its unique approach allows the reuse of automation artifacts across the whole DevOps lifecycle of applications. From large scale E2E acceptance tests, load-tests to RPA and synthetic Monitoring.
