## Vacant position : Full-stack Developer

(ref. JO-205)

---

### About us

exense GmbH is a software publisher and services company which specializes in Scalable Automation, Performance Engineering, Service Monitoring and Analytics. We operate in France, Germany and Switzerland and are a human-size, bootstrapped startup looking to deliver high-quality products to our clients. As an open-core company, we are firm believers in the open-source philosophy but we also believe in an open-minded workplace. We do our best to provide a dynamic, yet comfortable and ethical work environment for our employees.

### About this position

As a software developer, you will make direct contributions to our flagship automation product (see <http://step.exense.ch>) and will play a key role in the future of the platform.

Responsibilities include:

- making complex architectural decisions and solving algorithmic problems
- using multiple modern frameworks involved in all layers of a distributed system
- implementing and maintaining critical components written in Java, JS and .NET
- helping devops engineers automate & optimize our build, test & deployment pipelines
- supporting our users and using the resulting knowledge to improve the product

### About you

You're a sincere, responsible, curious and dedicated person. When faced with a problem, you like to persevere until you understand it and if possible, fix it. You are already comfortable with at least one object oriented language (preferably Java and/or .NET) and have a good understanding of Javascript (AngularJS & Node are a plus). Ideally, you've built something on your own that you'd like to show us. You focus on adding value to projects and communicate well with those who work with or around you. You speak and write English properly. German and French are a plus.

### Work conditions

Work hours are pretty flexible and we try to adapt to every individual situation. You get 5 Weeks of paid holidays per year. You can work one or two days remotely per week.

### Compensation

Competitive Swiss salary and benefits. Both Junior & Senior profiles will be considered.
