Vacant position

Front-End Developer - Remote 20h/ week

(ref. JO-220)

We are looking for a potential member of our team to provide Front-End support as needed, and as a backup to the existing team. This would start with a 6-month collaboration at approx. 20 hours per week, with the possibility of a long-term collaboration afterwards. This is a fully remote position for Europe-based freelancers.

exense GmbH is a software publisher and services company, specialized in Scalable Automation, Performance Engineering, Service Monitoring and Analytics. We are a human-size, bootstrapped startup operating for clients based in Switzerland, France and Germany. Our mission is to help companies operate their IT systems in a more efficient way through our in-house built innovative and high-quality products. As an open-core company, we are firm believers in the open-source philosophy, and we pride ourselves on being an open-minded workplace.

Our flagship product *step* is a comprehensive platform for unified software automation. Available as SaaS or on-premise, its unique approach allows the reuse of automation artifacts across the whole DevOps lifecycle of applications. From large scale E2E acceptance tests, load-tests to RPA and synthetic Monitoring.

Your responsibilities
As a Front-End Engineer, you will support our team with the Angular migration.
Your main tasks and responsibilities will include:
- Supporting our migration from AngularJS to Angular 13
- Supporting with the creation of Angular modules
- Debugging and fixing issues within the Angular / TS / HTML stack

Your skills & experience
We're looking for a dynamic person with solid experience, including:
- At least 2 years of experience in Front-End development with a minimum of 1 year using Angular
- Solid knowledge about Front-End architecture and best practices
- Proficiency with: TS, Angular, HTML, and SCSS
- Familiarities with AngularJS and GIT
- Fluent in English

Remuneration
CHF 20 - 30 / hour

Do you want to become part of the team?
